

Battery Terminal Primer

F1 and F2, seen below, are different types of right-angled terminals found on batteries. Typically, garage door opener batteries use F1 terminals and solar gate opener battery back-ups use F2 Terminals.

Faston Connector

F1

0.187" x 0.032"
quick disconnect tabs

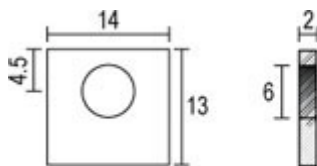

F2

0.250" x 0.032"
quick disconnect tabs

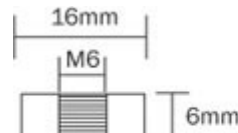

What other common terminals are available?

Nut and Bolt (NB)

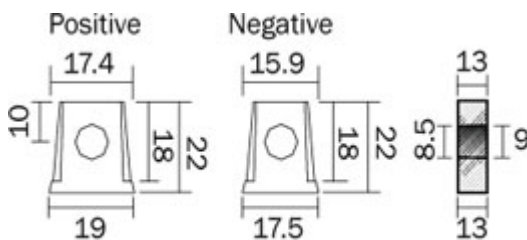

Torque: 3.9~5.4 Nxm

Threaded Insert (TI)

Torque: 3.9~5.4 Nxm

U Connector (U)

Torque: 11.0~14.7 Nxm

Insulated Wire Leads (WL)

- Molex Housing 5264-02 & 5263-PBT plug on NB6-0.5
- AMP Housing 1-480318-0 & 8116-1 on NB12-0.8

Faston Connector (F1/0)
